

The booking form gives very little information about the content of the Winter Weekend, mainly because we couldn't fit any more info onto one sheet.

However, to give you an idea if you have never been before, the Weekend is based on a number of worksheets relevant to the theme, and you can choose which problems to pursue.

Mostly we work in small groups, but you can choose who you work with—nothing is compulsory! It should be approachable to anyone who has completed MST124/MST125, but there will also be material to stretch those who feel the need.

There will also be some light relief, which may be a video, a talk or a group activity, and usually a quiz on Saturday night. Every year is different, but it is always enjoyable.

We start with dinner at 7pm on Friday (arrive any time after 2pm) and finish around 4pm on Sunday.

You don't have to be a member of M500 to come to the Weekend, but if you are, there is a small discount. If you decide to join at the same time as coming to the Weekend, please make sure that you send the [membership form](#) (and membership fee) to the New Membership Secretary, not to the Winter Weekend Organizer.
